BODYFURN® SLED CHAIR

The Bodyfurn® Sled Chair moves positively with the user, promotes healthy blood flow and leads to improved concentration levels in the classroom.

Positive seamless movement is effective, subtle and non disruptive.

Bodyfurn® Sled Chair

OC-BODY

A uniquely designed chair that increases concentration span for improved learning outcomes.

Colours: Deep Blue, Light Blue, Lime, Grey, Black, Red.

Features:

- Polypropelene seat and back
- 2mm gauge oval high tensile steel frames
- Silver Star powder coating

- The dynamic seat moves with the student when leaning forward.
- The seat provides a larger surface area delivering a pressure free platform.
- The independently pivoting seat and back allow the student to recline in comfort with no pressure points.
- A correctly sized chair allows the feet to be placed squarely on the floor.
- Circulation is uninhibited allowing greater focus on the day's tasks.
